The Theme is Green for this Year's YMCA Dream House

[Mentor, OH] – The 2008 Lake County YMCA Dream House is now under construction in the Summerwood community in Concord Township. Developed by 20th Century Construction, Summerwood is a planned conservation subdivision which helps maintain our natural resources through the careful incorporation of open space and protected common areas.

This year's Dream House is a 2,600+ square foot executive ranch. The home is being built using the latest "green-building" techniques for superior energy efficiency and cost savings.

The home features a state-of-the-art, high-efficiency geothermal heating and cooling system coupled with an enhanced insulation package. Inside, visitors will discover the novel use of recycled and renewable materials throughout.

Tour dates for the 2008 Dream House are June 27 through August 17, noon to 8pm daily. An information display and video outlining the home's green features as well as the benefits of 'building green' will be available to those touring the house.

The concept of green building means much more than energy efficiency. It also encompasses superior indoor air quality, water conservation, use of sustainable materials and much more.

ProBuilt Homes is a single family and multifamily residential construction firm which serves Lake and Geauga County. ProBuilt Homes is the builder of the 2006, 2007 & 2008 Lake County YMCA Dream Houses.

Proceeds from the Dream House Project are used for facility and equipment enhancement at all Lake County YMCA branches.
